

Truck Mounted Attenuator SS90HD

Impact absorber with Modular cartridges **Maximum protection / Minimum height and weight**

Key benefits

- > 90-degree tilt function thanks to hydraulic drive systems
- > Galvanized steel support frame
- > 2 lightweight aluminum cartridges
- > Impact is absorbed by steel support frame with centrally directed displacement
- > Lower repair costs

Characterize

- > Protection and rescue of road workers/motorists
- > Inspected for impacts up to 100km/h
- > Hydraulic locking during transports
- > Reduced wear thanks to vibration reduction
- > Conformities:
 - o NCHRP 350 Level 3
 - o UK TD 49/07 (110km/h)
 - o CD 378 Level 3

Specifications

- > 3.98 m in length from the back of a truck
- > 2.36 m broad - 906 kg
- > 3055 mm ground clearance
- > 7300 kg to 9000kg supporting vehicle weight
- > "Push-to-activate" function with buzzer (possibility of operation from driver's cab)
- > Open design for easy inspection and maintenance
