

Analog to digital interface

P0050F0070

Interface or 8 analog inputs

Key benefits

- > Easy installation
- > Provided for reading up to 8 analog inputs
- > Communication to desired central units and console via BUS cable

characterize

- > Negative mass (housing)
- > 1 RJ45 BUS cable 1m included
- > Fully Programmable with Speedfitter
- > Full configuration of gauge possible
- > Integration to 4 ADI in GO112 or VIGILINK systems
- > Addresses to be set via dip switches
- > Compliance: E13*10R03

Specifications

- > Operation Voltage: 12-24VDC
- > Maximum current 1A
- > 8 analog inputs (Faston cable shoes)
- > 2 BUS outputs
- > Ambient temperature -25°C to +60°C
- > Power Module:
 - weight 75g
 - Dimensions 94 x 73 x 26 mm
